## Materials

| Name                                 | Company                                      | Catalog Number | Comments                             |
|--------------------------------------|--|----------------|--------------------------------------|
| Dissecting scissors                  | VWR  | 470106-338     | Most sizes should work               |
| Dissecting Forceps, Fine Tip, Curved | VWR  | 82027-406      |                                      |
| 1.7 mL microcentrifuge tube          | VWR  | 87003-294      |                                      |
| Absolute Ethanol                     | Fisher Scientific                            | CAS 64-17-5    | To be diluted to 70% for dissections |
| Floral Foam                          | Wholesale Floral                             | 6002-48-07     |                                      |
| uCT50 scanner                        | Scanco Medical AG, Bruttisellen, Switzerland |                |                                      |
