Why publish in JoVE?

Showcase your research

Demonstrate your expertise within your research community. Easily share techniques and gain visibility with your video article.

Peer-reviewed and indexed

JoVE articles are peer-reviewed and [indexed](#) in PubMed/MEDLINE, Web of Science, SciFinder, and Scopus.

Train your lab efficiently

Use your video article for [training](#) new and existing lab members. Embed the video on your lab website.

Easy process: JoVE produces the video

JoVE has a world wide [videographer network](#). Authors submit a traditional text manuscript and JoVE handles the filming & production

Scope

JoVE is a scientific video methods journal.

JoVE publishes novel methods, innovative applications of existing techniques, and gold standard protocols in both the physical and life sciences.

Life sciences sections:

Biology
Behavior
Bioengineering
Biochemistry
Cancer Research
Developmental Biology
Genetics
Immunology & Infection
Medicine
Neuroscience

Physical sciences sections:

Chemistry
Engineering
Environment

Editorial Board

JoVE's Editorial Board includes world renowned scientists, physicians and key opinion leaders.

90+ scientists with expertise in JoVE's different sections act as advisors for the journal's content, scope and vision. Some of our Board members are:

Leonard I. Zon, Professor
Harvard Medical School

Hazel Sive, Professor
Massachusetts Institute of Technology

Seth B. Darling, Director,
Institute for Molecular Engineering
Argonne National Laboratory
