## Materials

| Name   | Company        | Catalog Number       | Comments   |
|--|----------------|----------------------|--|
| <i>Vibrio anguillarum</i> (strain AL 102, serotype O1) |                |                      | Obtained from the laboratory collection of NOIFMA (Norway) |
| Tryptic Soy Agar                                       | Liofilchem     | 610052               | Dehydrated Culture Media                                   |
| Tryptic Soy Broth growth medium                        | Liofilchem     | 610053               | Dehydrated Culture Media                                   |
| CuSO <sub>4</sub> ·5H <sub>2</sub> O                   | Sigma-Aldrich  | 209198               |  |
| NaCl   | Sigma-Aldrich  | S-3014               |  |
| Name of Equipment                                      | Company        | Catalog Number       | Comments/Description                                       |
| Biosafety Laminar Flow Hood                            | ESCO           |                      |  |
| Incubator  | Fratelli Galli | Mod. 2100            |  |
| Name of Software                                       | Company        | Catalog Number       | Comments/Description                                       |
| Benchmark Dose Software                                | US EPA         | Benchmark Dose 2.4.0 | 2012   |
