## Materials

| Name                  | Company                  | Catalog Number | Comments                        |
|-----------------------|--------------------------|----------------|---------------------------------|
| Double bag (2 x 3.5L) | MacoPharma               | VDL 8000XQ     | originally for ascites puncture |
| 50 mL Falcon tube     | Falcon BD                | 2098           |                                 |
| 50 mL Stripettes      | Costar                   | 4501           |                                 |
| Plasma bags (600mL)   | Baxter Internationl Inc. | R4R2021        |                                 |
| Sterile tubing welder | Terumo Medical Corp.     | TSCD-II        |                                 |
| Welding equipment     | Fresenius Kabi           | Compo Seal     |                                 |
| Water bath            |                          |                |                                 |
| Sterile scissors      |                          |                |                                 |
| Clamps                |                          |                |                                 |
| Centrifuge            |                          |                |                                 |
