## **Materials**

| <b>Name</b>                | <b>Company</b>            | <b>Catalog Number</b> | <b>Comments</b> |
|----------------------------|---------------------------|-----------------------|-----------------|
| DREL/2010 instrument       | Hach                      | 26700-03              |                 |
| Ethanol                    | Sigma-Aldrich             | E7023                 |                 |
| KIMAX glass Petri Dish     | VWR                       | 89001-244             |                 |
| MS-222                     | Sigma-Aldrich             | E10521                |                 |
| NitraVer 5 Nitrate Reagent | Hach                      | 14034-46              |                 |
| NitriVer 3 Nitrite Reagent | Hach                      | 14065-99              |                 |
| Parafilm                   | Fisher Scientific         | 3-374-10              |                 |
| Paraformaldehyde           | Sigma-Aldrich             | 158127                |                 |
| S6E stereomicroscope       | Leica                     | 10446294              |                 |
| Sodium nitrate             | Fisher Scientific         | S343                  |                 |
| Sodium nitrite             | Fisher Scientific         | S347                  |                 |
| Transfer pipets            | Laboratory Products Sales | L320072               |                 |
| Glass vials                | Fisher Scientific         | 03-338B               |                 |
