## Materials

| Name                               | Company         | Catalog Number | Comments   |
|------------------------------------|-----------------|----------------|--|
| 10 kDa MMCO membrane               | Merck millipore | PLGC07610      |  |
| 30% Acrylamide                     | LABLEAD         | A3291-500ml*5  |  |
| 5×Protein SDS Loading              | Novoprotein     | PM099-01A      |  |
| AMICON ULTRA-15 15ML-10 KDa cutoff | Merck millipore | UFC901096      |  |
| Ampicillin                         | Inalco          | 1758-9314      |  |
| APS                                | Sigma           | A3678-100G     |  |
| BL21(DE3) strain                   | TIANGEN         | CB105-02       |  |
| DMSO                               | MP              | 219605580      | Wear suitable gloves and eye/face protection. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.  |
| DTT                                | Solarbio        | D1070          | Gloves and goggles should be worn and operated in a ventilated kitchen. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.              |
| EDTA-2Na                           | KeyGEN BioTECH  | KGT515500      |  |
| Glycerin                           | HUSHI           | 10010618       |  |
| GSH                                | Amresco         | 0399-250G      |  |
| GSSG                               | Amresco         | 0524-100G      |  |
| Guanidine hydrochloride            | Amresco         | E424-5KG       |  |
| h $\beta_2$ m                      | our lab         |                | Zhang, S. et al. Structural basis of cross-allele presentation by HLA-A*0301 and HLA-A*1101 revealed by two HIV-derived peptide complexes. Mol Immunol. 49 (1-2), 395-401, (2011). |
| IPTG                               | Inalco          | 1758-1400      |  |
| L-Arginine Hydrochloride           | Amresco         | 0877-5KG       |  |
| NaCl                               | Solarbio        | S8210          |  |
| Protein Marker                     | Fermentas       | 26614          |  |
| SDS                                | Boao Rui Jing   | A112130        |  |

|                                 |               |               |   |
|---------------------------------|---------------|---------------|---|
| Superdex Increase 200 10/300 GL | GE Healthcare | 28990944      |   |
| TEMED                           | Thermo        | 17919         | Gloves and goggles should be worn and operated in a ventilated kitchen. |
| Tris-HCl                        | Amresco       | 0497-5KG      |   |
| Triton X-100                    | Bioruler      | RH30056-100mL |   |
| Tryptone                        | Oxoid         | LP0042        |   |
| Yeast extract                   | Oxoid         | LP0021        |   |
